Chief Trustee Message

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations".

Today the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be long life learners, critical thinkers and productive members of an ever-changing global society. Perfect International School is run by AkoleTaluka Education Society, Akole and has earned its own niche not only in akole but surroundings too. We provide atmosphere to our students to channelize their potential and is possible in a holistic, student centric environment. The talent, skills and abilities of each student needs to be identified and nurtured to enable the student to reach the greater heights. Students are provided with a platform to think, express and exhibit their skills. Perfect International school approaches to child centered Activity based learning and inculcating a scientific temper and a spirit of free enquiry.

We recruit highly skilled teachers to offering the best programs, great care is taken to assure that the students get all that is needed to be the best. We welcome your active interest and involvement in the progress and activities of your child. We look forward for your continues support.

CHIEF TRUSTEE'S MESSAGE

Education is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the hour. The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do in school. We, at Perfect International School, look at children as individuals and not as a class. We groom and nourish each child independently, for all required distinct attention. We build an atmosphere where each child explores multiple activities, and experiences challenges to find his/her own strengths. Life demands a healthy and intelligent mind, with a healthy body. Our curriculum has been especially designed to make it inclusive; where physical, emotional and mental needs are equally significant. Unlike the traditional method of teaching, where the focus is on the trainer, our approach is learner-centric. We maintain a democratic and participative culture with mutual respect and appreciation for individual values. There is a constant endeavor at our end to keep ourselves at par with the ever changing environment. Various orientation workshops are held at regular intervals for teachers to absorb the vision, align with the values and take ownership for our mission and the curriculum. The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become winners. Modern infrastructure, continuous realignment of curriculum, pedagogy and committed and skilled teachers are the ingredients of Perfect International School. As a concerned parent, your search for an effective collaborator to attend to your child's scholastic and versatile needs concludes at Perfect International School.

PERMENENT TRUSTEE'S MESSAGE

"Progress is not a dream, but a distant reality."

With this belief we begin our journey of perfect International School.

Education is a process by which character is formed, strength of mind is increased, and intellect is sharpened as a result of which one can stand on one's feet.

Preparing rural children to succeed in this challenging environment demands a flexible, real and value based approach to education. Indeed it requires a dynamic school that can turn learning into a life long journey of enquiry and discovery, culminating in knowledge that matters.

Opportunities and exposure is ample in metros and cities but the real India that lives in the villages is still striving to meet the basic needs and though education is one of the fundamental requirement it is not given much attention in this segments so, we started this school to provide opportunities to rural children and we have embraced this challenge.

With your best wishes we aim to develop this school to bring difference in the lives of our students.

FROM PRINCIPAL'S DESK

"Today we live in a challenging world filled with technology and economical innovations"

"Education is and forever will be the key to a successful and happy life."

As a Principal of Perfect International School, it is my pleasure to welcome you to our school. I am immensely proud of and impressed by the professionalism, commitment, dedication and teamwork of the staff to ensure an excellent education for all our students in a caring and supportive environment.

"Children must be taught how to think, not what to think" - (Margaret Mead)

We believe in the perfection that exists in each individual and that can be manifested through the right guidance on the part of the school. There is a spark of genius in every student which needs a teacher to kindle it. We as facilitators, try to imbibe in our students the value of courage, honesty, curiosity along with a spirit to work hard and be an achiever which will help them make the world deem even better place to live in.

Education is a life-long learning process. Learning happens all the time; not only in a pre-designated place called the school. It happens in the home, between home and school too. The home's and school's mission therefore is to provide a learning environment and opportunities to the children as the learners.

"Shaping young, impressionable mind is one of life's biggest challenges".

At Perfect International School Akole, we aim to empower our students to grow as individuals with strong open discerning minds with an international perspective, preparing them to make a mark in the global village- the world has come to be today.

We use innovative techniques, rich resources, proven instructional strategies and engaging programs to promote student learning. We develop in each of our students a curious, enquiring and discriminating mind, a desire for knowledge and a set of skills; linguistic, mathematical, scientific, artistic, physical, emotional and social.

Our students become strong in self-esteem and personal expectation and develop a healthy and respectful tolerance for others.

It is our endeavor to make education a purposeful, meaningful and enjoyable experience. Parents are encouraged, at all times, to communicate with teachers and the school leaders on issues that are of interest or concern to them.

As a Principal, my door is always open to parents wishing to discuss their child's progress or anything at all related to the school. I welcome and encourage you to be involved as this is the best way to "be learners for life" and be immersed in what schooling is about today.

Our staffs are passionate about making a difference to the academic, social and emotional learning of your child. Please do not hesitate to contact us.

"Balvatika" Pre-School

"Childhood is the most beatiful of all life seasons"

A human brain developes most rapidly between birth and age five making pre-school years a crucial part of child's education. So, we have stated a Balvatika & every classroom is a Mistake - Making, independent-Building, Brain-Stretching.

"Art fo toddlers and preschoolers is rarely about beauty. Its all about exploration and personal expression." The first five years have so much to do with how the next 80 years turns out. Well planed work sheets for practice makes every child think beyond prescribed textbooks

We shape the little minds to embrace the adventure and make the most of every opportunity.

Technology Aided Learning

Technology Aided learning is a regular feature of the school curriculum. Digital classrooms, use of internet for all classes and subject are being used by teachers which make teaching, Learning make effective and long lasting. Practical activity based teaching method is used prominently.
